

Tax Residency Self-Certification Declaration Form

Some important information before you start

The Irish Government has agreed a number of Inter-Governmental agreements to share tax information, where applicable, with the tax authorities in other jurisdictions including the US tax authorities. The requirement to collect certain information about each customer's tax residency is part of Irish legislation and as a financial services company we are legally obliged to collect it.

We are asking for your tax residency and tax ID numbers (where applicable) and will record this on our records now, but will only disclose this information to Irish Revenue if and when we are required to under Irish law. Irish Revenue may transfer this information to the government of another jurisdiction under an inter-governmental agreement.

If you are a US citizen or hold a US passport or green card, you will also be considered tax resident in the US even if you live outside the US.

For further information in relation to the collection of this data please see www.revenue.ie or www.oecd.org/tax/automatic-exchange/common-reporting-standard/.

For details on how we handle this and other information please refer to our privacy statement which is available on – www.pru.co.uk/privacy_security/

About filling in the form

This form should be completed by all applicants which are entities and by applicants who are individuals who have not provided full tax information in their Application form.

- You should complete either Section 1 of this form individual(s) or solely Section 2 entities. An entity means any customer who is not an individual, e.g. is a company or trust.
- Tax Identification Number "TIN"** (including "functional equivalent") The term "TIN" means Taxpayer Identification Number or a functional equivalent in the absence of a TIN. A TIN is a unique combination of letters or numbers assigned by a jurisdiction to an individual or an Entity and used to identify the individual or Entity for the purposes of administering the tax laws of such jurisdiction. Further details of acceptable TINs can be found on the OECD website noted above.

Some jurisdictions do not issue a TIN. However, these jurisdictions often utilise some other high integrity number with an equivalent level of identification (a "functional equivalent"). Examples of that type of number include, for individuals, a social security/national insurance number, citizen/personal identification/service code/number, and resident registration number.

For Entities, a TIN would include a corporate tax number or similar.

This form is divided into sections. Notes are provided on page 5 to help you to complete this form.

Please use black ink and write in CAPITAL LETTERS or tick as appropriate. Any corrections must be initialled – do not use correction fluid as this will invalidate the form.

Please send the completed form to **Prudential International, Stirling, FK9 4UE, United Kingdom**

2 For an Entity (continued)**Notes**

If you have any questions on how to complete this form we recommend that you speak to your tax or legal adviser.

- ¹ Enter the most appropriate address for the Entity. In the case of a non –professional managed trust this will be the name of the Trust provided to Prudential International and the address to which correspondence is normally sent. For other types of entity this will normally be the entity name and mailing address.
- ² Tax residency rules for entities vary from country to country and can be quite complicated. For instance, companies will often be tax resident in a country where they are incorporated and may also be resident in any other countries in which they conduct business, whilst trusts may need to consider where their trustees are resident. If there is any doubt about where an entity is tax resident, you should speak to your Adviser.
- ³ Trusts can either be a non-trading investment body or a Financial institution. Trusts will only be classified as financial Institutions where they meet certain conditions, one of which is that the trust is professionally managed. An example of this would be where the trust has appointed another Financial Institution to manage the assets of the trust. Note that where a policy is simply put into trust, this in itself does not make the trust a Financial Institution, please speak to your tax or legal adviser.
- ⁴ Controlling persons – for a trust this includes Settlor(s), Trustee(s), Protector(s) (if any) beneficiary(ies) or classes of beneficiary(ies), regardless of whether or not any of them exercise control over the activities of the trust.

Controlling persons for any entity, which is not a trust, includes a shareholder and other natural person exercising ultimate control over the investment.
- ⁵ A shareholders' details only needs to be included if they own or control more than 25% of the shares or voting rights or otherwise exercise control of the management e.g. They own less than 25% but their percentage of ownership is significantly higher than any other shareholders.
